

Registration number – UK-2015-0910 Appearance – Blue wax applied with caulking gun

Describe the activity or work process.
(Inc. how long/ how often this is carried out and quantity substance used)

Anticoagulant rodenticide used to control active rat / mouse populations inside buildings. Quantity to be used as per product label (attached) dependent upon species and area of use. For professional use only.

Location of process being carried out?

To control active rodent activity in and around buildings.

Identify the persons at risk:

Employees Sub-contractors Public

Name the substance involved including active ingredient, in the process and its manufacturer.
(A copy of a current safety data sheet is attached to this assessment)

Talon soft (Syngenta)
Active Ingredients – Brodifacoum (0.005%)

Classification (state the category of danger)

State the Risks to Health from Identified Hazards

EC Classification: not classified as hazardous

Control Measures:

Consider Non-toxic and least toxic options before application
 Always read label before use and comply with details.
 To be used by trained operative (professional) only
 Keep in original, labelled container.
 Remain in control of substance at all times. Storage to be restricted to certified store, out of storage use to be confined to regulated vehicle.
 Locate product to prevent access by non target species including pets. Within Tamper resistant bait box at all times.
 Where risk of interception by 3rd party warning labels to be used to denote use and risk
 Records to be kept on usage and location in pest control master file.
 Operator to wear suitable PPE when handling. Including gloves. Records of PPE maintenance to be held
 Waste product to be retained and disposed of by Pest Control operator as per EA guidelines.

Safety Phrases:

- S1 Keep locked up.
 S2 Keep out of the reach of children
 S7 Keep container tightly closed
 S13 Keep away from food, drink and animal feeding stuffs
 S20/21 When using do not eat, drink or smoke
 S36/37 Wear suitable protective clothing and gloves, wash hands after use
 S44 If you feel unwell, seek medical advice (show the label where possible)
 S49 Keep in original container
 S57 Use appropriate container to avoid environmental contamination
 S60 This material and its container must be disposed of as hazardous waste
 S61 Avoid release to the environment. Refer to special instructions / safety data sheets
 S62 If swallowed, do not induce vomiting : seek medical advice immediately and show the label or container

Is health surveillance or monitoring required?

Yes No **Personal Protective Equipment (state type and standard)**

First Aid Measures

Inhalation: Move the exposed person to fresh air. Obtain medical advice immediately. Unlikely to present an inhalation hazard as the product is supplied as a paste

Skin: may cause irritation to skin. Remove contaminated clothing. Wash off immediately with plenty of soap and water. If irritation persists obtain medical attention. Contaminated clothing should be washed and dried before re use.

Eyes: May cause irritation to eyes. Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. If irritation persists, seek professional medical attention

Ingestion: If swallowed, seek medical advice immediately and show the safety data sheet or label. Rinse mouth with water. Do not provoke vomiting, seek medical advice first

ANTIDOTE is vitamin K1 – to be administered by a medical or veterenarian professional

Storage / Spillage

Storage: Keep in original labelled container in designated, controlled pesticide store, out of reach of children and protected from elements.

Spillage – Clean spillages immediately. Avoid entry to watercourses

Disposal of Substances & Contaminated Containers

Hazardous Waste Skip Return to Depot Return to Supplier Other

(If Other Please State):.....

Is exposure adequately controlled?

Yes No **Risk Rating Following Control Measures**High Medium Low
